**Curious about how
our environmentally-
friendly cleaning
products have been
received?**

"In our experience, **Naval Kleen II** has proven to be a highly effective product for mitigating oil contamination of ballast tanks."

Jeff Phelps
Vessel Manager,
Maersk Line Ltd.

On Spillaway and Fleet Kleen:

"One of the best advantages aside from its ability to clean the deepest crevices and cracks on any surface is the added benefit of cost savings and time."

Greg Cox
PSA & Environmental
Coordinator for Delta Airlines

Greetings!

It's that time again! Christmas is upon us. It certainly is amazing how fast this year has gone.

With all the tumult in the world, it is nice to have an opportunity to reflect on our blessings and opportunities. Additionally, it's a great time to reflect on the past year and plans for the upcoming year.

We wish a Happy Holiday Season to all!

John

Are Toxic Solvents Sickening Your Aging Workforce?

It's a well-known fact that millions of workers in several industries are negatively affected by the use of toxic solvents. Trouble is, they're still being used in today's modern workplace, and even with strict safety measures in place, these volatile chemicals continue to pose a dangerous health threat to workers and therefore, can significantly impact a company's bottom line.

In fact, you don't have to look too far to find hundreds of examples of how these harmful substances can wreak havoc in the workplace, especially for those workers who are exposed over time.

Featured Product: PartsWasher Cleaner-Degreaser

[Click to link to our PDF file with specific product details.](#)

Parts Washer

PartsWasher is an aqueous based, non-solvent product which allows your parts cleaning and degreasing to be **free of any negative health or safety concerns**. For many years industry has relied on solvent-based parts washer to clean and degrease parts, tools and machine components.

While these **standard solvents generally do a good job of cleaning - they pose a severe health and safety risk to all workers that use them**. The added costs of disposal, fire risk, insurance surcharges and OSHA regulations further add to their negative impact on your business and the environment.

This is why we have developed **PartsWasher** which is a highly effective and environmentally-beneficial solution that will not harm surfaces but will lift heavy oils and greasy build-up on contact.

Please call or email us for more information at 919-740-0546 or john@totalbiosolution.com.
